

Bear Game

Materials needed:

1. Small bears (or some other items to move such as cheerios, pretzels, cars, etc)
2. Dice
3. Words written on word cards
4. A card with "start" written on it,  and a card with "finish" written on it

Directions:

- Make a path of word cards. Place the card "start" at the beginning and "finish" at the end.
- Take turns rolling dice. Move that many and then **read the word you land on**. If you can't read the word, move backwards until you can read a word.
- If you get near the "finish" and roll too high of a number, you have to move backwards that many.
- First one to the "finish" wins!
